

## WHO CAN USE THE LEARNING SPACE?

We have a remit to support community, business and school groups from across Cornwall and beyond - people have come to the Learning Space from Orkney and throughout Europe! Our usual flat rate charges are £200 per day or £40 per hour, whichever is cheapest for you!

**Free access to all North Kerrier Cluster Schools.**

We try to be open when you need us, which includes evenings and weekends with prior arrangement.

## WHAT NEXT?...

Where can I get more information?

I have an idea for an activity/project- what do I need to do next?

Would you like to discuss how your organisation could get involved?

Still have a question?

Would you like to arrange a visit?

How do I book the Learning Space?

The future of learning is here today!

## WHAT IS THE LEARNING SPACE?

The Learning Space is an **innovative, flexible** Centre, with 3 creative spaces:

- The **X-Change** seats up to 100 people
- The **Dome** for up to 35 people
- The **Pod** for up to 35 people

Plus 2 seminar rooms, suitable for up to 5 people each. All rooms feature the latest IT equipment and flexible seating options. We exist to **challenge people's thinking about what learning and classrooms could be like in the future.**

## EDUCATIONAL FEATURES

We aim to stay at the **leading edge of learning**. Learning is something that everyone does **lifelong & life wide** - at home, work, school, in our leisure time & even when we sleep. We are all learners & we learn best by seeing, talking & doing (with our picture, word and body memory) preferably all at once. Our Centre allows us to create the impression of being in a **different place** (for example a rainforest or a forensic lab) by showing images on our plasma screens, by playing sounds through our PA & by encouraging learners to lead their way through a **range of hands-on team activities & challenges**. How we learn is changing fast & what we learn is changing too. Learners develop their **knowledge, skills and attitudes** – all are equally important and **transferrable to the real world!** Learner and learning-centred approaches are at the heart of the Government's **personalised learning agenda**. We have been working this way since we opened and can show we are **already meeting the Government's vision of learning for 2020**, today! People of all ages leave our Centre having had fun, despite having worked hard and learnt a lot!

Newcastle University

## What can you do at the Learning Space?

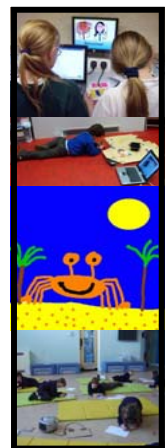

We work with learners of **any ages** – you are never too young or old! All experiences are adaptable for **children, young people, adults, families, community groups and businesses**. During our first year, organisations asked us for programmes on themes, issues or topics that were relevant to them & we collaboratively designed & ran programmes with them, which we were then able to offer to all our other partner organisations. The following year, we focused on helping adults from a range of settings to **plan & deliver their own events and programmes** at the Learning Space, as well as in their **own setting**. **You can come & do a Centre-led programme, lead your own programmes or just use us a venue for your event!**

### A world of different environments (for example...)

- ★ **Wild Space** : Explore the rainforest and polar zones
- ★ **World War II** : Home Front, War Effort & Command Post for D-Day
- ★ **Crime Scene Investigation (CSI)** : Work out 'whodunnit' by investigating - the scene of crime, the forensic lab, the casino (the deceased's place of work), the deceased's home & a police interview room. (We run a corporate team building version of this for Businesses!)
- ★ Recreating any historical era is possible here – experience life in **Viking & Roman** times!

**Flexible, open spaces in which to get creative...creativity is the key to innovation and enterprise...**

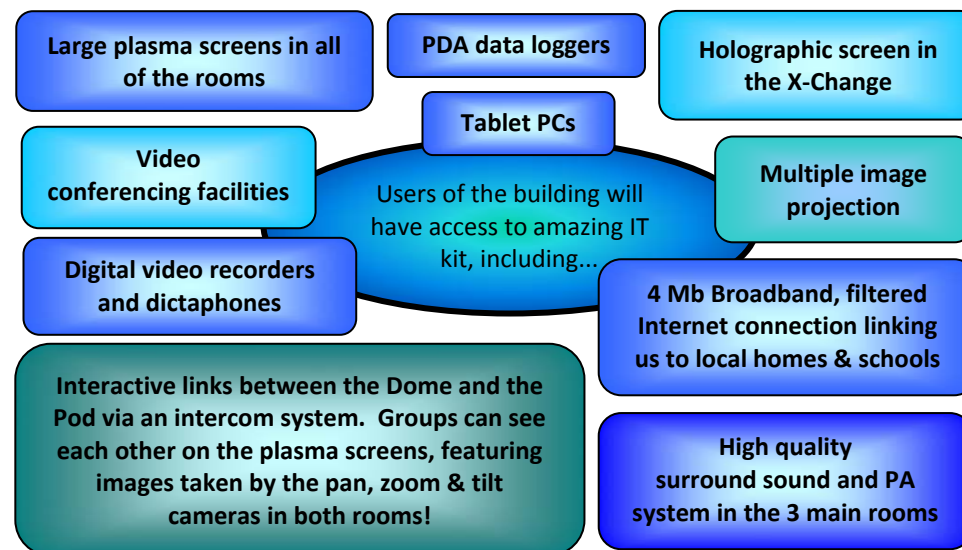

- ★ **Renewable Energy** : Tour our Centre and then design and build your own environmentally sustainable building.
- ★ **Animation workshops** : Create animations on a theme of your choice, write scripts, make characters, sets & then film with webcams or Digiblues!
- ★ **Emotional Learning** : Develop your emotions through a range of mediums – ICT, music & art.
- ★ **French Village & Spanish Siesta** build a French village or Spanish artefacts, research areas of the world where these languages are spoken & create digital dictionaries with your own voice, sound effects, animated drawings and writing.

If you'd like to use the Learning Space, it's easy, just contact Bethia McKinley to arrange dates, using the contact details on the back of this leaflet. Please aim to book early, as our diary fills up very quickly & often several months in advance!

## TECHNOLOGICAL FEATURES

Centre staff will provide technical support, advice and training to all users, irrespective of skill level. Should you have an idea for using the building, we could arrange to meet with you to **help plan your project** and to **help with any special technical requirements** you may want.

## ENVIRONMENTAL FEATURES

The building is futuristic in terms of its function and facilities and it has been designed to be sustainable too.
